OUR JOURNEY THROUGH TIME

3 decades ago In 1991, Queen Foods began as a small, family-owned business with a simple goal: to provide top-quality products and exceptional service. We initially served Asian restaurants, laying the foundation of our commitment to excellence.

EXPANDING HORIZONS

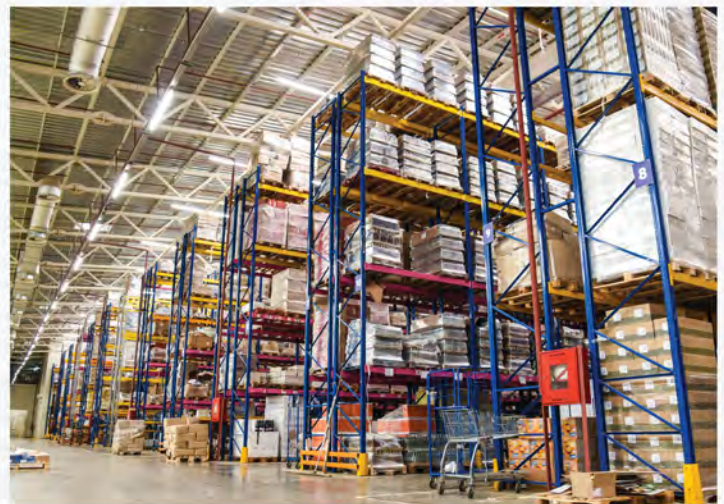

As time passed, we expanded into the grocery market, serving both independent and chain businesses. Our product range grew to include beef, poultry, pork, seafood, fresh produce, dry goods, and a variety of seasonings.

BUILDING OUR PRODUCT SELECTION

Recognizing the rich culinary traditions in our community, we launched a Hispanic-focused division. This division supplies essential products like Jarritos, beans, rice, Mexican beef, and more, catering to taquerias and carnicerías.

A TRADITION OF EXCELLENCE

Throughout our journey, our core values of quality, reliability, and customer dedication have remained constant. While we've grown, we've maintained our family-owned spirit and unwavering commitment to our customers.
